Dr. G. Fred Lee's
Stormwater Runoff Water Quality Science/Engineering Newsletter

Dr. Lee authored the “Stormwater Runoff Water Quality Science/Engineering Newsletter” to disseminate information on current and emerging topics and issues pertaining to evaluating and managing the water quality impacts of urban, highway, and rural stormwater runoff, and related topics. The monthly to bi-monthly issues were distributed at no cost, via email, to the approximately 8,000 professional and interested lay community subscribers between 1998 and 2011.

This index identifies the specific issues of the Newsletter that discuss Stormwater-related aspects of the topics listed. The Newsletters may be download at http://www.gfredlee.com/Stormwater_Newsletter.html

| Topic | Volume:Number |
|--------------------------------------------------|--------------------------------------------------|
| 303(d) Listed Waterbodies and TMDLs | 1:1, 1:2, 5:2, 6:3, 6:4, 10:1, 12:1/2 |
